

MWR Program Status by Garrison

One verdict per program, per garrison · 78 garrisons × 16 programs · scan of 29 July 2026

- Pass — every checked page localized (175)
- Unlocalized — still stock copy, nothing broken (122)
- Fail — at least one broken page (878)
- Not offered (73)

How the verdict is set. Each program covers several pages, so the program takes its *worst* page status: one broken page makes the program **Fail**, even if the rest are fine. The count beside each badge (“2 / 9”) is pages complete out of pages checked, so a program that is nearly done is still distinguishable from one that is untouched. A page a garrison doesn't offer is excluded from both numbers.
