

# Libraries Program Section Update Instructions

Below are instructions for how and where to plug in installation-specific content into the new Libraries Program section.

## Additional Page Content

The Libraries pages don't have any placeholder content that requires installation-specific information to be added. That said, additional content can be added to the top of bottom of existing pages around the centralized content if need be.

Additionally, if desired, content managers can add new subpages for specific library locations if they include library-specific content.
