Below are instructions for how and where to plug in installation-specific content into the new Bowling Program section.

Bowling Landing Page

Near the bottom of the Bowling landing page you will find the “What You’ll Find at Bowling Centers” section - this section is editable, so please add your features and edit the placeholder content to match your offerings.
(Continued on next page).

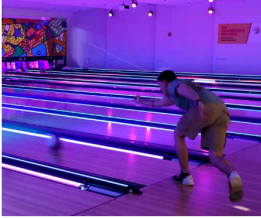

Options & Game Types Page

On this page, you can edit the top paragraph to include information about your options and game types, and also the alternating image / text block to highlight your special offers. Please remove anything you don't feature at your Bowling Center.

We also offer special formats...

Glow or cosmic bowling with music and lights

Kid-friendly games with shorter play time and simple scoring

The bowling center offers several ways to play, so you can choose what works best for your group and your schedule. Whether you want a classic game or something more high-energy, there's an option that fits.

Traditional bowling is always available and is a great choice for casual games, practice, or league play. Automatic scoring keeps the game easy to follow, even for first-time bowlers.

We offer hourly bowling, which lets you bowl as much as you want during your reserved time. This option is popular for families and groups because it's simple to plan and budget.

Prices, Deals & Specials

Please edit this table to include your pricing. You can add and remove rows and columns as needed by right clicking on the table. Finally, please review and update the discounts list.

Bowling centers are designed to be affordable and flexible, whether you're stopping in for one game or staying for the afternoon.
