

Arts and Crafts Program Section Update Instructions

Below are instructions for how and where to plug in installation-specific content into the new Arts and Crafts Program section.

Classes and Workshops Page

For the “Classes Include” section, there are some placeholder Feature blocks in place. Please edit these to include information about your class offerings in general. Avoid including scheduling

information, as that should generally be included in calendar events and can get stale on this page if they change in the future if you include that information here.

You can delete these blocks if you don’t have that many classes, or you can add more if you need more. Copying one of the existing Feature blocks and pasting it from your clipboard and editing that is the fastest and easiest way to do that.
